

GLOSSARY - INF 112 POKER GAME

Words:	Explanation:
Act	Make a decision (fold, check, bet, call, raise)
All in	When a player has posted all the chips he had left in one move.
BB/SB	Big blind/Small blind. Positions on the table. Has to post a set amount of chips on the table before the hand starts. Big blind is usually twice the amount of the small blind. Small blind is left of the dealer position, big blind is left of the small blind.
Bet	The opening wager of a betting round. Must be a minimum of 1x BB .
Betting round	Every player in the hand bets until everyone have paid the same amount of chips, then the betting round is over.
Blind level	the value of the BB and the SB
Call	If a bet has been placed in the current betting round, a player can check
Check	If no bet has been placed in the current betting round, a player can check. This forwards the decision to the next player.
Community cards	The 5-7 displayed cards on the table.
Flop	The first three community cards displayed on the table.
Fold	Give up your current hand, giving you no chance of winning this particular hand. Typically done after someone has bet/raised.
Heads up	A poker game between only two players. May also refer to a larger session with only two players left
Hole cards	The two personal cards of each player
Post	Put the blinds on the table
Pot	Total amount of chips posted on the table so far.
Raise	To increase the size of an existing bet in the same betting round
River	Last community card displayed on the table
Sit and Go	A poker tournament where the number of players already is set. Eg: If the tournament is a six-player tournament, the game doesn't start before six players has joined the tournament.

Show down	All players still in the hand show their hole cards and the winner is determined.
Stack	The amount of chips each player has at any given time during the game
Startstack	The amount of chips each player starts with
Turn	Fourth community card displayed on the table
UTG	Under the gun. Position left of the BB . This position is the first to act when the hand starts
